Thanks Ed. A few suggested edits below.

Carl, let us know if these are acceptable and if Ed is cleared to send. Thanks.

**Subject:** Draft Confirmation for City of Dallas Meeting on Lane Plating Works Inc.  
**Importance:** High

Hi Carl and Pam,

The below is a draft response confirming our attendance for the City of Dallas requested meeting regarding the Lane Plating site for March 7<sup>th</sup>, 2019. As mentioned in the summary I provided this morning, this meeting is being hosted by City Councilpersons Atkins and King Arnold, with participation from other state and city offices. I will address the confirmation to Paul White from the city's environmental office, as he's been the primary point of contact. Please revise and edit the below as you see fit, and we can send on to the city quickly.

Good afternoon Paul,

I am happy to share that EPA will be able to staff the community meeting requested for March 9<sup>th</sup>, 2019, during the planning meeting Councilman Atkins hosted yesterday. Our attendance is subject to the EPA remaining open through March 9<sup>th</sup>. We will need to revisit the date if we are subject to another furlough. As per the group discussion, EPA will give a 15 minute briefing related to the Lane Plating Works Superfund site to explain that contamination is currently limited to on-site, city drinking water is safe, and to provide information about the site moving forward (Superfund process, site sampling etc.). As city and local government officials will host the meeting, we are confident this will provide a positive message regarding the safety of citizens affected by the site.

EPA would also like to request a planning meeting much like the one we had yesterday to discuss meeting logistics and expectations. Please let us know a time and date so that we can move forward with the process.

Thank you for all the flexibility, and we look forward to working with everyone soon.
